With 3.26 GPA

SLC
Prithivi Narayan school

Kathmandu

Mar, 2017

With 3.75 GPA

PROJECTS

REAL-ESTATE MERN PROJECT

The Real Estate Platform is a web app that simplifies property listing and search using MongoDB, React, and Node.js. It provides user-friendly features like authentication, listing management, image upload via Firebase, optimized search filters, and a sleek design with Tailwind CSS. The tech stack includes MongoDB for data storage, React for the front-end, Node.js for the back-end, Firebase for images, and Tailwind CSS for design

https://github.com/sammanamgain/MERN_REAL_ESTATE

Movie Ticket Booking (MERN)

The project is simple movie ticket booking site.Authorization,session management process is secure.The API is build using Node js and Express js and the database is mongodb which is atlas mongodb.The frontend is made using React js,react-router-dom ,along with react -redux toolkit .After login or signup user can see movies , book them.
